

STARTING OFF IN AES

(A HOW-TO FOR CLUB DIRECTORS AROUND THE BADGER REGION)

 After logging in and receiving a club director log in, you will need to enter your club code (as well as basic contact and location information) into the AES Info section for your club. A club code is received after filling out your Club Registration Form with Badger Region in Sports Engine. (If you have NEVER logged in before, click here for a tutorial on how to set up an account)

SportsEngine Integration	
Add SportsEngine Integration	
Name	Affiliations
Club Name *	USAV Region
Badger Region	Badger (BG)
Club Short Name	USAV Region Map
Short club name used for automatic team naming.	AAU District
Club Code *	Not Affiliated
BDGRR	AAU District Map
	JVA
Club Type *	Not Affiliated
Junior Volleyball	Affiliations cannot be changed after club verification.
Contact Information	

2. You will then want to create teams for your club by clicking on "Teams" in the left rail.

5. Once credentials are verified in the "Sports Engine Integration" process, you can complete a "Data Import." This will allow you to build rosters in AES. It is HIGHLY recommended that all of your athletes and rostered adults have their memberships, IMPACT, SafeSport and Background screenings in Sports Engine before doing a Data Import. You will have to do a Data Import multiple times to pull in additional players or staff.
